There are several reasons why the results of the present study may not be generalizable to other populations. First, the sample was composed of young adults, and the results may not apply to older adults. Second, the sample was composed of students, and the results may not apply to non-student populations. Third, the sample was composed of individuals who were not currently experiencing a mental health problem, and the results may not apply to individuals who are currently experiencing a mental health problem. Fourth, the sample was composed of individuals who were not currently using a mobile phone, and the results may not apply to individuals who are currently using a mobile phone. Fifth, the sample was composed of individuals who were not currently using a mobile phone, and the results may not apply to individuals who are currently using a mobile phone. Sixth, the sample was composed of individuals who were not currently using a mobile phone, and the results may not apply to individuals who are currently using a mobile phone. Seventh, the sample was composed of individuals who were not currently using a mobile phone, and the results may not apply to individuals who are currently using a mobile phone. Eighth, the sample was composed of individuals who were not currently using a mobile phone, and the results may not apply to individuals who are currently using a mobile phone. Ninth, the sample was composed of individuals who were not currently using a mobile phone, and the results may not apply to individuals who are currently using a mobile phone. Tenth, the sample was composed of individuals who were not currently using a mobile phone, and the results may not apply to individuals who are currently using a mobile phone.

Abstract

the 1990s, the U.S. economy has been able to maintain a high rate of growth, despite the fact that the economy has been hit by a number of major shocks, including the Asian financial crisis, the Russian financial crisis, and the Asian flu pandemic. The U.S. economy has been able to maintain a high rate of growth, despite the fact that the economy has been hit by a number of major shocks, including the Asian financial crisis, the Russian financial crisis, and the Asian flu pandemic. The U.S. economy has been able to maintain a high rate of growth, despite the fact that the economy has been hit by a number of major shocks, including the Asian financial crisis, the Russian financial crisis, and the Asian flu pandemic.

CONCLUSIONS The results of this study indicate that the use of a single, low-dose, intravenous bolus of propofol for sedation of patients with severe head injury is safe and effective. The use of propofol for sedation of patients with severe head injury may be a useful adjunct to the management of these patients.

THE INFORMATION OFFICE

For more information on the products and services we offer, please contact us at 1-800-368-7262 or visit our website at www.3m.com.

Preparation
 1. Wash hands thoroughly with soap and water.
 2. Put on gloves.
 3. Prepare the solution in a clean container.
 4. Add the required amount of disinfectant to the water.
 5. Mix thoroughly.
 6. Use the solution immediately.
 7. Dispose of the solution properly.
 8. Wash hands again after use.
